

HONORS

Take the Honors Challenge!

Enrollees in the Honors Program are incoming high school graduates with a minimum high school GPA of 3.5 and continuing college students with a minimum college GPA of 3.25. Students may also be admitted into Honors classes by successfully completing the challenge process.

These classes are open to all students enrolled in the Honors Program. To enroll in the Honors Program, complete an enrollment form and have it signed by any counselor. Merced Campus counselors are located on the 2nd floor of the Leshar Student Services Center. Los Baños students please call (209) 381-6413 for information at the Los Baños Campus. (All counselors have forms.)

LEARNING COMMUNITIES

MDRC

Learning Communities are pairs or clusters of courses that revolve around a theme or major. If you are interested in one of these classes you must enroll in all of the classes in that group. You must enroll in person to determine if you are eligible and receive a counselor's signature.

Learning Communities #1 through #8 are part of a national study and must follow the random selection process for enrollment; interested students must consult with a counselor and an LC Clerk to enroll in these communities. Learning Community #9 is not part of a national study and follows the standard registration process for admission.

For more information about Learning Communities, contact Kay Lee at (209) 386-6754 or kay.lee@mccd.edu.

#1 ENGL-80-1262 & ENGL-83-1820

THE POWER OF STORIES

Outstanding stories are built through words, sentences, paragraphs, details and more. In this Learning Community, we will explore the idea that to write well requires us to read well. Reading and writing can move and delight us. Join this learning community to read interesting stories and about everyday people, and find your own powerful voice as a writer.

BRIDGES TO SUCCESS BY BREAKING BARRIERS

These classes will link reading and writing assignments to a common theme of personal success. Starting with how we see ourselves and how others might see us, we will move outward to larger issues of breaking down stereotypes, learning from history, tackling indifference, and exploring different points of view. Through engaging and collaborative lessons, both classes will coordinate reading and writing assignments to provide students with the learning strategies necessary for identifying and breaking down barriers in order to build bridges to success both in and out of the classroom

ONLINE AND HYBRID INSTRUCTION

ONLINE and HYBRID REQUIREMENTS AND EXPECTATIONS

- **Hybrid** courses have some combination of online and face-to-face instruction. Some courses may only require one face-to-face session, while others may require numerous in-class sessions.
- **Online** courses are 100% on line. Face-to-face interaction with the professor is not required.

Merced College Internet-based classes give students an opportunity to complete most of the course work outside the classroom at times they find most convenient.

Currently most of the Internet-based classes require some time on campus in face-to-face contact with the instructor. This requirement will vary from class to class, so read the schedule carefully.

Students must already possess the following technology skills:

- Use of e-mail
- Ability to create and e-mail documents as attachments (Word and RTF)
- Experience with uploading and downloading files
- Experience with posting to discussion boards, on-line chats, and electronic bulletin boards

Students must have reliable personal e-mail and an Internet web access account. Merced College has an open computer lab where students can access the Internet to take these classes, but it is not open around the clock, on holidays, or Sundays.

It is strongly recommended that students have easy and regular access (preferably from home) to the identified types of equipment and software.

You can access faculty web pages through <http://mccd.edu/faculty/>. They may contain valuable information relative to your online course:

All orientations and in-class sessions for Online Instruction take place on the Merced College Main Campus located at 3600 M Street in Merced.

Failure to attend a mandatory orientation or in-class session may result in your being dropped from the class by the instructor. Some of the instructors require that you e-mail them BEFORE THE CLASS BEGINS. It is highly recommended that you e-mail the instructor for instructions several weeks before the class begins.

ONLINE and HYBRID CLASSES WILL REQUIRE A PC WITH:

- 800 MHz processor (1.5 GHz or higher recommended)
- Super VGA (800 x 600) resolution video adapter and monitor (1024 x 768 or higher recommended)
- Windows XP or Vista operating system
- 256 MB RAM (512 MB or greater recommended)

OR A MAC WITH:

- 600 MHz power PC G4 or better (1 GHz or higher recommended)
- 800 x 600 resolution video adapter and monitor (1024 x 768 or higher recommended)
- OSX 10.3.9 or later
- 128 MB RAM (512 MB or greater recommended)

ALL USERS REQUIRE INTERNET ACCESS WITH:

- 56k modem or faster connectivity (Broadband connection such as DSL or cable recommended)
- Macintosh users will need Safari 1.2 or higher
- PC users will need Internet Explorer 6.0 or higher or Firefox 2.0 or higher

Blackboard

(for logging in to your online classes)

You can access your online courses through Blackboard via the merced College web portal or by going directly to <http://blackboard.mccd.edu>.

Your Blackboard username will be the same as your Merced College web portal username. Your password will be your six-digit birth date.

To find your username or reset your password, go to <http://my.mccd.edu> and click on "Get Login Help".

SUPPLEMENTAL INSTRUCTION

Want better grades in English or Math?

Sections of traditionally difficult courses are participating in a program called Supplemental Instruction (SI). In these sections, a trained SI leader will be present to offer assistance. The SI leader is a student who has recently taken the course from the same instructor and received a high final course grade.

Two to three hours of voluntary study sessions will be scheduled each week outside of the class time, allowing students to spend additional time working with the course material under the guidance of the SI leader. Enroll in these sections and attend the study sessions for the best chance of success in these courses. There is no additional cost to the student, and study sessions are always optional.

For more information contact Jennifer McBride at (209) 384-6376 or by e-mail at mcbride.j@mccd.edu.

For more information contact Marie Bruley at (209) 386-6674 or by e-mail at bruley.m@mccd.edu.
