

Beginner's Guide to OmniUpdate

This guide covers how to log in, how to edit a page, and how to publish a page to the web server. For more tutorials, visit <http://www.mccd.edu/web/tutorials.html>.

1. Go to www.mccd.edu and navigate to the webpage to which you have editing access. Log in via the hyperlinked date located in the footer of the page.

2. Enter your network credentials in the OU Campus login page.

3. Click on the "main content" button to toggle into editing mode.

4. When done making edits, click "save and exit" to save your changes.

5. Click "Publish"

6. A publish dialog box will appear with another publish button. Click "Publish."
