

Editing Images with Pixlr.com/express

1. Go to www.pixlr.com/express
2. On the PIXLR Express welcome screen click **Browse** to select a photo to edit.

3. From the toolbar at the bottom of the screen, select **Adjustment** to access the resize and crop tool:

For larger images, you may want to **Resize** first then **Crop** to the exact dimensions.

4. Click **Save** from the top of the screen when done.

NOTE: Please resist adding effects – such as borders, text or other overlays – to images which will be used on mccd.edu. These styles will clash with the look & feel of the official College website. Feel free to use special effects for your own personal images and projects!
