Preventing Sexual Assaults

Knowing the facts about rape...

Rape is a violent crime - a hostile attack - an attempt to hurt and humiliate. It is NOT the result of "uncontrolled passions." Rape can happen to anyone. Children, grandmothers, students, working women, wives, mothers, and even males are the victims of rape.

Rape can occur anywhere and at any time in public or in your own home, day or night. Rapists are not necessarily strangers. In fact, in over one third of reported cases, the rapist is an acquaintance, neighbor, friend, or relative of the victim.

Prevention Tips...

First, know the facts about rape. Become aware of locations and situations where rape could occur, and avoid them. Consider your alternatives if confronted by a rapist. Practice possible responses so that you can recall them even under the stress of a real encounter.

Outdoors...

- Be alert to your surroundings and the people around you - especially if you are alone or it is dark.
- When possible, travel with a friend.
- Stay in well-lit areas as much as possible.
- Walk confidently, directly, at a steady pace. A rapist looks for someone who appears vulnerable.
- Walk on the side of the street facing traffic.
- Walk close to the curb. Avoid doorways, bushes, and alleys where rapist can hide.
- If you think you are being followed, walk quickly to areas where there are lights and people.
- If a car appears to be following you, turn and walk in the opposite direction, or walk on the other side of the street.
- If in danger - scream and run, or yell fire, or break a window to attract attention.

At home...

Many rapes occur in or near the victim's home. One of the best ways to prevent sexual assault is to practice good home security.

- Install effective locks on all doors and windows - and use them.
- Install a peephole viewer in your door. NEVER open your door without knowing who is on the other side. Require salespersons or repairmen to show identification.
- If strangers telephone or come to your door, don't admit that you are alone.
- If you live in an apartment, avoid being in the laundry room or garage by yourself, especially at night.
- If you come home and find a door or window open or signs of forced entry, don't go in. Go to the nearest phone and call the police.

Car safety...

- Always lock car doors after entering or leaving your car.
- Park in well-lit areas.
- Have your car keys in your hand so that you don't have to linger before entering your car. Keys can also serve as a possible weapon against an attacker.
- Check the back seat before entering your car.
- If you think you are being followed, drive to a public place or a police station.
- If your car breaks down, open the hood and attach a white cloth to the car antenna.
- If someone stops to help, stay in your locked car and ask them to call the police or a garage.

If attacked...

Remember your main concern must always be your safety. No one can tell you whether you should fight back, submit, or resist. IT DEPENDS ON YOU AND THE SITUATION. However, your best defense is to be prepared - know your options ahead of time. Your safety may depend upon your ability to stay cool and calm.

Weapons...

Carrying weapons for self-defense is controversial and sometimes illegal.

Be safe – for more information, contact your local law enforcement agency.

If you are a victim of a rape....

Get help quickly. Call the police, sheriff, a rape crisis center, doctor, friend, or relative.

- Do NOT wash, douche, change clothes or clean up in any way until after talking to the police and going to the hospital. (You could destroy valuable evidence.)
- Remember you are the victim. You have nothing to feel guilty or ashamed about.

Emergency Response and Evacuation Policy

The Merced Community College District Campus Police officers have been trained in Incident Command and response to critical incidents on campus. In the event of an immediate threat to the health or safety of the college community first responders to the scene can be the, Merced, Merced County Sheriff's Department, or Los Banos Police Department, Merced or Los Banos Fire Department, and Merced College Student Health Services. These first responders work together to manage the incident and depending on the nature of the incident could call-in other city, county, state or federal agencies to assist.

Campus Police receives emergency and incident information from various sources such as: dispatchers, Merced County Sheriff's Department, Merced Police Department, Los Banos Police Department, and other law enforcement agencies. If Campus Police confirms there is an emergency or incident that poses an immediate threat to the college community, Campus Police can act unilaterally or in collaboration with other agencies to notify the college community. The content of the emergency notification will be determined by the type and size of the incident. Campus Police or other first responders may send immediate notifications by email, text messaging, phone call, or loud speaker. Immediate notifications may be sent by one or all of these methods depending on the type of incident.

Evacuation drills are performed at both Merced Community College District Campuses at least once a year. The evacuation drills are conducted by Campus Police services, the Safety Committee, and the Emergency Preparedness Coordinator. The purpose of evacuation drills is to conduct an assessment of the District's response to emergency protocols, which includes the ability to evacuate buildings safely and in a timely manner, ensure the safety of all employees, students and guests, and assess training and resource needs.

Annual Disclosure of Crime Statistics

The “**Jeanne Clery Disclosure of Campus Security Policy and Crime Statistics Act**” is a federal law that requires institutions of higher learning (colleges and universities) to disclose campus security information including crime statistics for the campus and surrounding areas. All institutions of post-secondary education, both public and private, that participate in federal student aid programs must publish and disseminate an annual campus security report in addition to providing timely warnings of any criminal activities.

To comply with the Clery Act, the Merced Community College Campus Police Department is responsible for gathering crime statistics and providing safety information to all students, staff, faculty, visitors, and prospective students and employees of the district. Campus Police collects the crime statistics from both campuses and from the local law enforcement agencies located within the cities of Merced and Los Banos.

Geographical Locations

Merced Community College District has two campuses and must comply independently; therefore, this survey will reflect two separate reports:

- Merced Campus, Business Resource Center (BRC) and the surrounding area
- Los Banos Campus, the Welding Shop and surrounding area

On-Campus – Building or property owned or controlled by an institution within the same reasonably contiguous geographic area and used by the institution in direct support of, or in a manner related to, the institution’s educational purposes.

Public Property – All public property, including thoroughfares, streets, sidewalks, and parking facilities, that is within the campus, or immediately adjacent to and accessible from the campus. Public property category consists solely of two limited areas:

- *Within campus*
- *Immediately borders and is accessible from the campus. In many cases this property consists of a public sidewalk that borders the campus, the public street along the sidewalk and the public sidewalk on the other side of the street.*
